Festival

Labyrinthe musical en Rouergue

Workshop "Le Serpent dans tous ses états"

Villefranche de Rouergue

Aug. 9th - 12th, 2017

led by
Michel Godard

Co-organized by
ARREM and
Demandez le Programme

Michel Godard

Born near Belfort (France) in 1960, Michel Godard soon established himself as an extraordinarily versatile exponent of the tuba, pursuing a career in jazz and classical music. He is now one of the tuba and serpent virtuosos in Jazz as well as improvised music.

In 1979 he took up the serpent, ancestor of the tuba, whose latin name is derived from its shape - that of a coiled snake. The serpent's wooden mouthpiece gives it a characteristic warm and intense tone. With this "second" instrument, Michel Godard has taken yet another step in broadening the field of expression in ancient music as well as in Jazz. Since 2002, he is the serpent professor at the Paris "Conservatoire national de musique".

As a composer, Michel Godard has been commissioned by Radio France ("Penthés(il)ée II"), Donaueschingen Musik-tage/Südwestrundfunk ("De mémoire de tuba", "Tra la folla, mora,

mormora", "Praeludium"), French Ministry of Culture ("Bradamante aux aguets", "Les enfants d'un paradis").

He has recorded many CDs with his own projects: "Archangelica", "ImpertinAnce", "Cousins Germains" for CamJazz, "Castel del monte", "Tubatuba" for Enja, "Deep", "Trio rouge" for Intuition, "Monteverdi A trace of Grace", "Concert des parfums" for Carpe Diem.....

He also collaborates with writer Nancy Huston (Tendres ténèbres, Pérégrinations Goldberg, Tentatives de renaissance)

Michel Godard first came to Villefranche de Rouergue for the "Labyrinthe musical en Rouergue" festival in 2013.

In 2014 he recorded "A serpent dream" in the Chapelle des Pénitents noirs, including a number of pieces played with the amazing historical serpent from Villefranche's "Confrérie des Pénitents noirs". The record was released by Intuition Music in 2015.

Le Serpent dans

tous ses états

This workshop is intended for musicians wishing to explore the serpent, and for serpent players wishing to develop their own technique and musical inspiration.

The city of Villefranche De Rouergue owns a beautiful serpent (see drawing below), from the "Chapelle des pénitent noirs", and some sheet music which was written for it.

We will work on the specific serpent techniques, from early music (Plain chant, renaissance, baroque) to modern music (jazz, contemporary music) with a look to improvisation.

A concert with all serpent players will take place within the "Labyrinthe musical en Rouergue" festival.
